#### CERTIFIED PUBLIC ACCOUNTANTS

#### INDEPENDENT AUDITOR'S REPORT

Board of Directors Harbor Sanitary District Brookings, Oregon 97415

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the remaining fund information of Harbor Sanitary District, Brookings, Oregon, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Harbor Sanitary District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the remaining fund information of Harbor Sanitary District, Brookings, Oregon as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 10 and 32, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Harbor Sanitary District's basic financial statements. The individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The aforementioned information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated November 23, 2020 on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance.

Koontz, Blasquez & Associates, P.C.

Debra L. Blasquez, CPA

Albany, Oregon November 23, 2020

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### INTRODUCTION

As management of Harbor Sanitary District, Brookings, Oregon, we offer readers this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. It should be read in conjunction with the District's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- At June 30, 2020, total net position of Harbor Sanitary District amounted to \$9,792,718. Of this amount, \$3,238,270 was invested in capital assets and \$426,307 was restricted for systems development. The remaining balance of \$6,128,141 was unrestricted.
- The District's total net position increased by \$486,775 during the current fiscal year.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to Harbor Sanitary District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation and sick leave).

The government-wide financial statements can be found on pages 11 through 12 of this report.

#### **Fund Financial Statements**

The fund financial statements are designed to demonstrate compliance with finance-related legal requirements overseeing the use of fund accounting. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. All of the funds of Harbor Sanitary District are governmental funds.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### □ Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements; however, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of available resources at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General, Capital Projects, and Construction Funds, all of which are considered to be major governmental funds, as well as for the HSD Systems Development Fund, which is considered to be a nonmajor governmental fund.

Harbor Sanitary District adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for each fund individually to demonstrate compliance with their respective budgets.

The basic governmental fund financial statements can be found on pages 13 through 16 of this report.

#### Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 17 through 31 of this report.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which includes budgetary comparison information for the General Fund. This required supplementary information can be found on page 32 of this report.

The individual fund schedules are presented immediately following the required supplementary information on pages 33 through 35 of this report.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. At June 30, 2020, the District's assets exceeded liabilities by \$9,792,718.

A large portion of the District's net position (33.1%) reflects its investment in capital assets (e.g., land, buildings, and equipment). The District uses these capital assets to provide services to customers; consequently, these assets are not available for future spending.

#### **District's Net Position**

At the end of the current fiscal year, the District was able to report positive balances in all categories of net position. The District's net position increased by \$486,775 during the current fiscal year.

Condensed statement of net position information is shown below.

#### **Condensed Statement of Net Position**

	Governmental Activities	
	2020	2019
Assets Current assets	\$ 6,352,739	\$ 6,130,294

Net position - beginning of year	9,305,943	8,815,675
Net position - end of year	\$ 9,792,718	\$ 9,305,943

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measurement of the District's net resources available for spending at the end of the fiscal year.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

At the end of the current fiscal year, the District's major governmental funds reported a combined fund balance of \$6,160,862, an increase of \$74,929 over the prior year. Of this amount, there was \$18,270 of nonspendable amounts related to prepaid expenses, \$3,937,350 assigned to capital acquisitions, and \$1,094,587 assigned to system construction. The remaining \$1,110,655 constitutes unassigned fund balance, which is available for spending at the District's discretion.

#### Significant Changes in Major Governmental Fund Balances

- General Fund: The 44.2% increase in nonspendable fund balance can be attributed to the addition of prepaid health insurance.
- Construction Fund: Amounts assigned to system construction decreased 21.1% due to the repair of the inflow and infiltration systems.

#### Analysis of Revenues and Expenditures

Combined revenues for the fiscal year totaled \$1,691,734, compared to the prior year total of \$1,733,749, which is a decrease of 2.4%. Combined expenditures for the fiscal year totaled \$1,575,148, compared to the prior year total of \$1,544,544, which is an increase of 2.0%. The table below presents a comparison of revenues and expenditures by category for the years ended June 30, 2020 and 2019.

	2020	2019
Revenues		
Charges for services	\$ 1,503,727	\$ 1,540,870
Connection charges	3,558	2,905
STE charges	32,829	17,971
Investment earnings	145,969	161,999
Miscellaneous	5,651	10,004
Total revenues	1,691,734	1,733,749
Expenditures		
Current		
Personnel services	269,777	241,258
Materials and services	1,206,686	822,736
Capital outlay	98,685	480,550
Total expenditures	1,575,148	1,544,544
Excess (deficiency) of revenues over (under) expenditures	\$ 116,586	\$ 189,205

#### CAPITAL ASSETS

The District's investment in capital assets for its governmental activities as of June 30, 2020 amounted to \$3,238,270, net of accumulated depreciation, which is an increase from the prior year of 12.5%. This investment in capital assets includes land, construction in progress, computer equipment, buildings and improvements, and infrastructure and operating equipment.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

The total depreciation related to the District's investment in capital assets for the current fiscal year was \$207,086.

Additional information on the District's capital assets can be found in Note III-B on pages 27 through 28 of this report.

#### **BUDGETARY HIGHLIGHTS**

Budget amounts shown in the financial statements reflect the original budget amounts and one approved appropriation transfer.

The table below compares revenues and expenditures of the District to budgeted amounts used by the District to monitor performance during the year. The overall change in fund balances was budgeted at a net decrease of \$6,281,840. Total actual revenues exceeded total expenditures by \$116,586. The favorable variance of \$6,398,426 can be attributed to expenditures being less than anticipated.

	Final Budget	Actual	Variance with Final Budget Over (Under)
Revenues Charges for services Connection charges STE charges Investment earnings Miscellaneous	\$ 1,400,000 2,500 13,475 93,000 6,200	\$ 1,503,727 3,558 32,829 145,969 5,651	\$ 103,727 1,058 19,354 52,969 (549)
Total revenues	1,515,175	1,691,734	176,559

Contingency	130,000		(130,000)
Total expenditures	7,797,015	1,575,148	(6,221,867)
Excess (deficiency) of revenues over (under) expenditures	(6,281,840)	116,586	6,398,426
Other financing sources (uses) Transfers in Transfers out	630,000 (630,000)	630,000 (630,000)	
Total other financing sources (uses)	***		
Net change in fund balances	(6,281,840)	116,586	6,398,426
Fund balances - beginning	6,320,000	6,470,583	150,583
Fund balances - ending	\$ 38,160	\$ 6,587,169	\$ 6,549,009

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Significant Budgetary Variances: General Fund

- Investment earnings were budgeted for \$15,000. Actual revenues were \$25,893 (72.6% over budget) due to an increase in interest rate by the Local Government Investment Pool.
- Expenditures for personnel services were budgeted for \$427,325. Actual expenditures were \$269,777 (36.9% under budget). The District consistently budgets for the potential of employees leaving, which could result in payouts of earned leave.
- Expenditures for materials and services were budgeted for \$1,222,550. Actual expenditures were \$599,497 (51% under budget). The District consistently budgets high due to negotiations with the City of Brookings regarding sewer treatment rates not being settled.
- Expenditures for capital outlay were budgeted for \$23,000. Actual expenditures were \$2,314 (89.9% under budget) due to a capital outlay expense being moved to the 2020-2021 fiscal year.

#### KEY ECONOMIC FACTORS AND BUDGET INFORMATION FOR THE FUTURE

At the time these financial statements were prepared and audited, the District was not aware of any circumstances that could significantly affect its future financial health.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Harbor Sanitary District, Finance Department, P.O. Box 2457, Brookings, Oregon 97415.

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Net change in fund balances		\$	116,586
Amounts reported for governmental activities on the statement of activities are different because:			
Governmental funds report capital outlay as expenditures; however, on the statement of activities, the costs of these assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.  Disposal of capital assets	(35,000)		
Related accumulated depreciation Expenditures for capital assets Less current year depreciation	18,200 582,474 (207,086)		358,588
Some expenses reported on the statement of activities do not require the use of current financial resources and are therefore not reported as expenditures in the governmental funds.			
Compensated absences		Če	11,601
Change in net position		\$	486,775

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Harbor Sanitary District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

#### A. Reporting Entity

Harbor Sanitary District was formed in 1971 to provide sewer services to the unincorporated area known as Harbor, located in southern Curry County, Oregon. The District is currently governed by a five-member board of directors elected from the District at large. Each member is elected to a four-year term.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges for goods and services provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Items not properly included among program revenues are reported instead as general revenues.

Individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting; however, expenditures related to compensated absences are recorded only when payment is due.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Investment earnings and charges for services associated with the current fiscal period are all considered to be susceptible to accrual and have therefore been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the District's primary operating fund. It accounts for all financial resources of the District except for those required to be accounted for in another fund. The primary source of revenue is charges for services.

#### Capital Projects Funds

Capital Projects Fund – The Capital Projects Fund accounts for the revenues and expenditures associated with the purchase, construction, and major repair of capital assets. The primary sources of revenue are investment earnings and transfers from other funds.

Construction Fund – The Construction Fund accounts for the acquisition and construction of major capital facilities. The primary sources of revenue are connection charges, investment earnings, and transfers from other funds.

The District also reports the following nonmajor governmental fund:

#### Capital Projects Fund

HSD Systems Development Fund – The HSD Systems Development Fund accounts for added capacity. The primary sources of revenue are sewer treatment expansion charges and investment earnings.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

## D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity

#### 1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the District to invest in legally issued general obligations of the United States, the agencies and instrumentalities of the United States and the states of Oregon, Washington, Idaho, or California, certain interest-bearing bonds, time deposit open accounts, certificates of deposit, and savings accounts in banks, mutual savings banks, and savings and loan associations that maintain a head office or a branch in this state in the capacity of a bank, mutual savings bank, or savings and loan association, and share accounts and savings accounts in credit unions in the name of, or for the benefit of, a member of the credit union pursuant to a plan of deferred compensation.

#### 2. Accounts Receivable

Accounts receivable are recorded as revenue when earned. No allowance for uncollectible accounts has been established, as management has determined that receivables are nearly 100% collectible.

#### 3. Prepaids

Certain payments to vendors reflect costs appliable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

#### 4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost where no historical records exist. Donated capital assets are recorded at estimated fair market value at the date of donation.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

#### 4. Capital Assets (Continued)

The costs of normal maintenance or repairs that do not add to the value of an asset or materially extend its life are charged to expenditures as incurred and are not capitalized.

Major capital outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Computers	5-7
Infrastructure and operating equipment	5-25
Buildings and improvements	5-50

#### 5. Compensated Absences

Amounts of vested or accumulated vacation and sick leave that are expected to be liquidated with expendable available financial resources are reported as expenditures when paid. Amounts of vested or accumulated vacation and sick leave that are not expected to be liquidated with expendable available financial resources are reported as long-term liabilities on the statement of net position.

#### 6. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period and therefore, will not be recognized as an outflow of resources until that time.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period and therefore, will not be recognized as an inflow of resources until that time. The District has one item that qualifies for reporting in this category, which is unearned revenue from utility billings. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available. Unearned revenue from utility billings is reported on the government-wide statement of net position and the balance sheet.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

## I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

#### 7. Retirement Plan

District employees participate in a deferred compensation plan under Section 457 of the Internal Revenue Code of 1986, as amended. Employees are eligible to participate upon employment and may make pre-tax contributions by salary reduction, subject to Internal Revenue Service limits.

Effective July 1, 2016, for those employees who are not employed pursuant to a written employment contract with Harbor Sanitary District, the District shall contribute 10% of such an employee's annual salary to the Section 457 deferred compensation plan established by the District.

For those employees employed pursuant to a written employment contract with Harbor Sanitary District, the District shall contribute a percentage of such an employee's annual salary to the Section 457 deferred compensation plan as specified in the employment contract.

Effective July 1, 2019, for those employees who are employed for five continuous years with the District, the District shall contribute an additional 0.5% of such an employee's annual salary to the employee's Section 457 deferred compensation plan established by the District. In addition, the District shall contribute an additional 0.5% of such an employee's annual salary for each year of continuous employment after the employee's fifth year of continuous employment.

Effective July 1, 2016, Harbor Sanitary District adopted 100% vesting for the Section 457 deferred compensation plan for those employees not enrolled in the plan on June 29, 2016 based on time of service with the District.

#### 8. Fund Equity

The District reports fund equity in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance amounts that are in nonspendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

### 8. Fund Equity (Continued)

- Committed fund balance amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., board of directors). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest-level action to remove or change the constraint.
- Assigned fund balance amounts the District intends to use for a specific purpose.
   Intent can be expressed by the board of directors or by an official or body to which the board of directors delegates the authority.
- Unassigned fund balance amounts that are available for any purpose. Positive amounts are reported only in the General Fund.

Commitment of fund balance is accomplished through adoption of a resolution or ordinance by the board of directors. Further, commitments of fund balance may be modified or rescinded only through approval of the board of directors via resolution or ordinance. Authority to assign fund balances has been granted to the District Manager.

The District has not formally adopted a minimum fund balance policy.

#### E. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

#### II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

#### A. Budgetary Information

The District budgets all funds in accordance with the requirements of state law. Annual appropriated budgets are adopted for the general and capital projects funds. All funds are budgeted on the modified accrual basis of accounting.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

#### II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (Continued)

#### A. Budgetary Information (Continued)

The District begins its budgeting process by appointing budget committee members. The budget officer prepares a budget, which is reviewed by the budget committee. The budget is then published in proposed form and is presented at public hearings to obtain taxpayer comments and approval from the budget committee. The budget is legally adopted by the board of directors by resolution prior to the beginning of the District's fiscal year. The board resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Total personnel services, materials and services, debt service, capital outlay, and contingency are the levels of control established by the resolution. The detailed budget document, however, is required to contain more specific detailed information for the aforementioned expenditure categories and management may revise the detailed line item budgets within appropriation categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of a fund's original budget may be adopted by the board of directors at a regular board meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers, and approval by the board of directors. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control. Such transfers require approval by the board of directors. During the year, there were no supplemental budgets. The District does not use encumbrances and appropriations lapse at year-end.

Budget amounts shown in the financial statements reflect the original budget amounts and one approved appropriation transfer.

#### B. Budget Transfer Resolution

The budget transfer resolution for the year ended June 30, 2020 did not include the appropriation category, which is in violation of Local Budget Law.

#### III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

#### A. Deposits and Investments

Harbor Sanitary District maintains a cash and cash equivalents pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the fund financial statements as cash and cash equivalents. Interest earned on pooled cash and investments is allocated to participating funds based upon their combined cash and investment balances.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

## III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

#### A. Deposits and Investments (Continued)

Investments, including amounts held in pooled cash and investments, are stated at fair value. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application, investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Fair value is determined at the quoted market price, if available; otherwise, the fair value is estimated based on the amount at which the investment could be exchanged in a current transaction between willing parties, other than a forced liquidation sale. Investments in the State of Oregon Local Government Investment Pool (LGIP) are stated at fair value.

The Oregon State Treasury administers the LGIP. The LGIP is an open-ended, no-load, diversified portfolio offered to any agency, political subdivision, or public corporation of the state that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. To provide regulatory oversight, the Oregon Legislature established the Oregon Short-Term Fund Board and LGIP investments are approved by the Oregon Investment Council. The fair value of the District's position in the LGIP is the same as the value of the pool shares.

#### Credit Risk

Oregon statutes authorize the District to invest in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, and the Local Government Investment Pool. The District has not adopted a formal policy regarding credit risk; however, investments comply with state statutes.

#### <u>Investments</u>

As of June 30, 2020, the District had the following investments:

	Credit Quality		
	Rating	Maturities	Fair Value
Oregon Local Government Investment Pool	Unrated	12	\$ 6,723,579

#### Interest Rate Risk

The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increases in interest rates.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

#### III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

#### A. Deposits and Investments (Continued)

#### Concentration of Credit Risk

The District does not have a formal policy that places a limit on the amount that may be invested in any one insurer. 100 percent of the District's investments are in the Oregon Local Government Investment Pool.

#### Custodial Credit Risk - Investments

This is the risk that, in the event of the failure of a counterparty, the District will not be able to recover the value of its investments that are in the possession of an outside party. The District does not have a policy that limits the amount of investments that can be held by counterparties.

#### Custodial Credit Risk - Deposits

This is the risk that, in the event of a bank failure, the District's deposits may not be returned. All District deposits not covered by Federal Depository Insurance Corporation (FDIC) insurance are covered by the Public Funds Collateralization Program (PFCP) of the State of Oregon, organized in accordance with ORS 295. The PFCP is a shared liability structure for participating bank depositories. Barring any exceptions, a bank depository is required to pledge collateral valued at a minimum of 10% of their quarter-end public fund deposits if they are considered well capitalized, 25% of their quarter-end public fund deposits if they are considered adequately capitalized, or 110% of their quarter-end public fund deposits if they are considered undercapitalized or assigned to pledge 110% by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities.

The District holds an account at US Bank, for which the FDIC provides insurance coverage of \$250,000 for demand deposit accounts and an additional \$250,000 for time and savings accounts. At June 30, 2020, the District's total deposits of \$32,912 were insured by the FDIC.

#### Deposits

The District's deposits and investments at June 30, 2020 are as follows:

Cash on hand	\$	200
Checking accounts		25,400
Total investments	L===	6,723,579
Total deposits and investments	\$	6,749,179

### NOTES TO BASIC FINANCIAL STATEMENTS

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

## III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

#### B. Capital Assets (Continued)

Depreciation expense was charged to the functions/programs of the District as follows:

Governmental activities
Wastewater collection

\$ 207,086

#### C. Interfund Transfers

Operating transfers are reflected as other financing sources (uses) in the governmental funds. Interfund transfers during the year consisted of:

	Transfers in:				
	Capital				
	Projects	Construction			
	Fund	Fund	Total		
Transfers out:					
General Fund	<u>\$ 350,000</u>	<u>\$ 280,000</u>	\$ 630,000		

The primary purposes of the interfund transfers in were to fund engineering and construction expenditures for infrastructure improvement projects.

#### D. Compensated Absences

The following is a summary of compensated absences transactions for the year:

	eginning Balance	Addi	tions	Re	eductions	Ending Balance	
Compensated absences	\$ 44,322	\$	:=	\$	(11,601)	\$	32,721

The General Fund has traditionally been used to liquidate compensated absences liabilities.

#### IV. OTHER INFORMATION

#### A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. There was no significant reduction in insurance coverage from the previous year. There were no insurance settlements exceeding insurance coverage in any of the past three years.

#### B. Deferred Compensation Plan

Eligible employees of the District participate in an employer-sponsored deferred compensation plan under Section 457 of the Internal Revenue Code of 1986, as amended. Full-time employees are considered eligible to participate after a six-month probationary period. Benefits under this plan are fully and immediately vested from an employee's first day of participation. The District has contracted Variable Annuity Life and Insurance Company (VALIC) to provide the administrative services for those amounts of deferred compensation under the plan in which employees have invested. Employees have the freedom to make pre-tax contributions by salary reduction subject to Internal Revenue Service limits and to select the investment options in which they are investing. For full-time employees, the District makes an employer contribution totaling 10% of gross salary. Those employees who have been employed for five or more continuous years are eligible for an additional 0.50% for each additional year of employment. Employer contributions to the plan totaled \$24,223, \$15,215, and \$13,191 for the years ended June 30, 2020, 2019, and 2018, respectively.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

#### IV. OTHER INFORMATION (Continued)

#### C. Other Postemployment Benefits

The effect of applying the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions, is considered immaterial to the District's financial statements for the year ended June 30, 2020 and has therefore not been recorded.

#### D. New Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the following pronouncements that have future effective dates that will impact future financial presentations. Management has not currently determined what impact implementation of the following statements will have on future financial statements.

GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, is effective for the District immediately. The primary objective of this statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. The objective is accomplished by postponing the effective dates of certain provisions in statements and implementation guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018.

GASB Statement No. 87, Leases, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting of leases by governments.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objective of this statement is to simplify accounting for interest costs incurred before the end of a construction period, and enhance the relevance and comparability of capital asset information.

GASB Statement No. 92, *Omnibus 2020*, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation of certain GASB statements.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will be effective for the District beginning with its fiscal year ending June 30, 2023. The requirements of this statement will improve financial reporting by establishing the definitions of public-private and public-public arrangements (PPPs) and availability payment arrangements (APAs) and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

## IV. OTHER INFORMATION (Continued)

#### D. New Pronouncements (Continued)

GASB Statement No. 96, Subscription-Based Information Technology Arrangements, will be effective for the District beginning with its fiscal year ending June 30, 2023. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for governments.

#### E. Subsequent Events

Management has evaluated subsequent events through November 23, 2020, which was the date that the financial statements were available to be issued.

#### 1. COVID-19

Harbor Sanitary District's operations may be affected by the recent and ongoing outbreak of the Coronavirus Disease 2019 (COVID-19), which was declared a pandemic by the World Health Organization in March 2020. The ultimate disruption that may be caused by the outbreak is uncertain; however, it may result in a material adverse impact on the District's financial position, operations, and cash flows. Possible effects may include, but are not limited to, disruption of the District's revenue, absenteeism in the District's labor workforce, and the unavailability of products and supplies used in operations.

## INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Harbor Sanitary District Brookings, Oregon 97415

We have audited the basic financial statements of Harbor Sanitary District as of and for the year ended June 30, 2020, and have issued our report thereon dated November 23, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

#### Compliance

As part of obtaining reasonable assurance about whether Harbor Sanitary District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes, as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures, which included, but were not limited to, the following:

#### Accounting records

Deposit of public funds with financial institutions (ORS Chapter 295)

Budgets legally required (ORS Chapter 294)

Insurance and fidelity bonds in force or required by law

Programs funded from outside sources

Authorized investment of surplus funds (ORS Chapter 294)

Public contracts and purchasing (ORS Chapters 279A, 279B, 279C)

Accountability for collecting or receiving money by elected officials

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, contracts, and grants, including the provisions of Oregon Revised Statutes, as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except as follows:

1. The budget transfer resolution for the year ended June 30, 2020 did not include the appropriation category, which is in violation of Local Budget Law.

#### OAR 162-010-0230 Internal Control

In planning and performing our audit, we considered Harbor Sanitary District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Harbor Sanitary District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Harbor Sanitary District's internal control over financial reporting. However, we noted certain matters that we have reported to management of the District in a separate letter dated November 23, 2020.

The District does not have any elected officials collecting or receiving money.

This report is intended solely for the information and use of the board of directors and management of Harbor Sanitary District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.
